"We know that no two Unions are the same and that each has a unique blend of benefits and requirements."

– Jim Kelly
Managing Director, EasyAdmin

The SaaS/Cloud model is a great way for the Funds to offload the costs and hassles of maintaining their own data center without incurring large upfront expenses. The primary focus of the Benefit Fund office should be in servicing the Members, not struggling with a never ending cycle of IT upgrades, patches, and bugs. The software and data are safe and secure in our data center which features intrusion detection, automatic backups, and site redundancy. It can be securely accessed anywhere, anytime, from any number of devices, including tablets and smartphones!

Easy is what makes us different.

Easy to Implement. Easy to Use. Easy to Maintain.

Our software was created from the ground up with a history of over 50 years of Union and Benefit Fund software experience. Our industry knowledge combined with the latest state-of-the-art technology enabled us to create a product that makes the difficult tasks easy. Our software is a true web-based solution that can run on your network or be hosted in our cloud. Whether you are a large District Council or a small Local, **EasyAdmin** is the easy solution to the difficult problems that today's Union Benefit Funds encounter every day:

- Complicated contracts? **Easy!**
- Pension funding improvement plans? **Easy!**
- Employer delinquency policies? **Easy!**
- Need to determine lost earnings on delinquent contributions? **Easy!**

In today's competitive labor market all administrative costs are ultimately borne by the Members in lost wages and/or benefits. **EasyAdmin** is the easy, cost effective solution to solve your Union and Benefit Fund administration problems.

To find out if **EasyAdmin** is right for you, visit **www.decusoft.com**.

About Decusoft

Founded in 2002, Decusoft is a premier developer of configurable, web-based software solutions. Our Taft-Hartley Benefit Fund solution, **EasyAdmin**, was designed from the ground up to make Fund Administration easy.

Decusoft software solutions are backed by exceptional people and superior support. Our team of Benefit Fund, accounting, and technical experts has an extensive, proven track record of delivering highly-configurable, practical solutions that address your most complex administration issues. And, our client-focused approach allows us to partner with you to implement an administration solution that truly works the way you work.

We realize that Taft-Hartley Benefit Fund administration is a challenging, time-intensive task encompassing many types of data, complex and unique rules, and compliance requirements. This is why Decusoft prides itself on providing a configurable product that makes it simple to enforce Board of Trustee decisions and apply the rules as stated in the Plan documents.

We make the complex easy.
